Moksh Overseas Educon PVT. LTD | Frontend Developer Mumbai, Maharashtra | August 2024 – April 2026

- Built reusable UI components using Component-Based Architecture for scalable and maintainable applications
- Developed and integrated application features with cross-functional teams
- Created reusable UI components for scalable and maintainable code
- Integrated RESTful APIs to fetch and display dynamic frontend data efficiently
- Fixed bugs and improved performance for better reliability
- Optimized applications for performance, Cross-Browser Compatibility, and seamless user experience
- Managed daily IT operations and ensured smooth technical support
- Followed clean code practices and modular architecture

Capri Tech Global Services (CTGS) | Frontend Developer Intern Mumbai, Maharashtra | March 2024 - June 2024

- Developed a Responsive Web Design using CSS Grid and Flexbox with a Mobile-First Development approach
- Built user-friendly UI components for client projects
- Ensured mobile-first and cross-device compatibility
- Fixed bugs and improved UI performance
- **Skills** – HTML5, CSS3, JAVASCRIPT, BOOTSTRAP

Projects: –

Bella Vista Restaurant

- **Fluid Responsive Design:** Created a framework-free, lightweight layout using CSS Grid and Flexbox, resulting in 100% responsiveness.
- **Performance Optimization:** Reduced CSS bundle size significantly by eliminating heavy dependencies, improving Core Web Vitals, and load speeds. [Link - Bella Vista Restaurant](#)

Laundry Wala Service Website

- **Dynamic Data & Integration:** Developed a modular services section using asynchronous JS and integrated Email.js for automated customer notifications.
- **Advanced UI/UX:** Engineered a pixel-perfect UI with Mobile-First Development and responsive design principles.
