Professional Experience: –

Moksh Overseas Educon PVT. LTD | Frontend Developer Mumbai, Maharashtra | August 2024 – April 2026

- Designed and developed responsive user interfaces using HTML, CSS, JavaScript, and React.js improving overall user experience
- Collaborated with cross-functional teams to build, integrate, and deploy new application features
- Implemented UI enhancements and reusable components, ensuring scalability and maintainability
- Worked with REST APIs to fetch and render dynamic data on the frontend
- Identified and resolved application bugs during development and production, improving system performance and reliability
- Optimized web applications for performance, responsiveness, and cross-browser compatibility
- Managed Day-to-Day IT Operation, ensuring system reliability and smooth technical support across the organization.
- Followed clean code practices and modular architecture for better maintainability

Capri Tech Global Services (CTGS) | Frontend Developer Intern Mumbai, Maharashtra | March 2024 - June 2024

- Developed responsive web pages using HTML, CSS, JavaScript, Bootstrap
- Built user-friendly UI components for client projects
- Ensured mobile-first and cross-device compatibility
- Fixed bugs and improved UI performance
- Skills** – HTML5, CSS3, JAVASCRIPT, BOOTSTRAP

Project: –

Bella Vista Restaurant

- Fluid Responsive Design:** Created a framework-free, lightweight layout using CSS Grid and Flexbox, resulting in 100% responsiveness.
- Performance Optimization:** Reduced CSS bundle size significantly by eliminating heavy dependencies, improving Core Web Vitals, and load speeds. [Link - Bella Vista Restaurant](#)

Laundry Wala Service Website

- Dynamic Data & Integration:** Developed a modular services section using asynchronous JS and integrated Email.js for automated customer notifications.
- Advanced UI/UX:** Engineered a pixel-perfect, mobile-first layout with scroll-triggered animations and custom CSS breakpoints.
- [Link - LAUNDRY WALA](#)

Tech Care Dashboard

- Dynamic Data Architecture:** Engineered modular components to consume RESTful APIs, enabling real-time rendering of patient profiles, medical reports, and diagnostic health scores.
- Interactive Visualization:** Leveraged Chart.js to transform raw clinical data into intuitive, interactive visual analytics for tracking patient trends and health metrics.
- High-Fidelity & Responsive UI:** Delivered a pixel-perfect, mobile-first interface using Bootstrap, ensuring seamless cross-browser compatibility and optimized performance. [Link - Tech Care Dashboard](#)
